

Multi-terrain: goal in valley - Terrain-Following 3D Stackelberg Solution
leader: (x_s, y_s) ; follower: physical Bellman Attacker response; $w_{PoD} = 0.9$, $w_{cov} = 0.1$

A Evaluated 2D Defender candidate region

B Final Stackelberg sensor and Attacker response

- Powered path
- Glide path
- Optimal sensor
- Goal
- Switch

C Defender objective components
